New Crop FLOWER SEEDS

DECORATIVE PLANTS.

HENRY A. DREER,

...PHILADELPHIA, PA.

DREER'S DECEMBER "SPECIAL"

....Wholesale Price List....

Seed Department.—This is in charge of trained experts, and whether your wants may be in Vegetable, Agricultural or Flower seeds, you may be sure to get only the choicest.

Plant Department.—Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, Araucaria, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown, and will compare favorably with stock distributed by us in previous seasons.

Whenever possible, we solicit a personal inspection of our stock. Our nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen.

The new ranges of glass erected in 1895 and 1896, covering 53,000 square feet each, (two of the houses being nearly one acre each under one roof) are certain to interest anyone having anything to do with a greenhouse. This, we believe, illustrates in a practical way, that we believe in home-grown plants.

Our Palm cultures are now undoubtedly the largest and most complete in the country.

A time card of trains, with directions how to reach the nurseries, will be mailed to anyone applying.

Low Express Rates on Plants, Seeds and Bulbs.—We are shipping by express lines to all parts of the country, plants, etc. packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Boxes weighing less than 100 pounds are charged at pound rates, minimum charge not less than 35 cents. For example: where the general rate is \$5.00 per 100 pounds, a box weighing 20 pounds will be carried for 80 cents. Prepaid 4 pound packages of seeds, plants and bulbs are carried to California and all distant points for 30 cents each.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** on Plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary.

 **Plants and other perishable goods, when sent in any other way, are solely at Purchaser's Risk.** 

Terms of Business.— Unknown correspondents desiring to open an account, will please furnish satisfactory reference, otherwise cash must accompany order.

 Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

 Perishable goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

Change of Terms.—In order to equalize and to give the same time of credit on all purchases, we have decided to abolish our old system of credits in which all accounts, regardless of date of purchase, were due in January and July, and have decided to adopt a new system, as follows:

All bills will be due and payable Ninety (90) days after date of invoice.  No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices.

 In filling out your order, always give **Shipping Directions**, and write **Name and Address Distinctly**.

Non-Warranty.—We wish it to be distinctly understood, that although we continue to take all possible pains to supply only New, Genuine and unadulterated Seeds and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

We give close attention to the Flower Seed department of our business, which is probably the largest in quantity and variety in this country. Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call special attention to our choice strains of Cineraria, Carnations, Calceolaria, Cyclamen, Gloxinia, Pansy, Primula, etc., which are acknowledged by leading growers to be superior in all respects. ASPARAGUS SPRENGERI.

Asparagus Sprengeri.

When introduced, at a high price, a little over a year ago, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as, for example, in the decoration of mantles, nothing can equal it.

We offer but a very limited stock in 3 inch pots, \$1.25 per dozen; \$10.00 per 100.

Asparagus Plumosus Nanus.

This is undoubtedly the finest of all the Tree Ferns for use in decorative purposes, and though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators in all the Eastern cities, succeeding admirably as a house plant, which is not the case with any other Tree Fern. It possesses a grace and delicate appearance that is found in no other plant, the illustration giving but a faint idea of its beauty. It is a variety that is always scarce and difficult to obtain.
